Dear Brian:

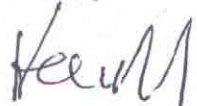

In an effort to recover the materials I loaned Charlier and agreed for him to give to you for your JFK show, when I received no response to a number of letters I phoned the French Embassy in Washington and spoke with a very kind gentleman in the press office.

He has been in touch with Charlier, from whom I have received the enclosed letter and three 8mm films, two of which retain my identifications of them as Martin and Nix films.

While as I say to Charlier the receipt appears to be for what you sent me, which is totally useless to me and is not what I loaned him, I would appreciate any check you can make to determine that, in fact, what you sent me is what your people in Paris received from him.

I will keep all parties informed with copies until I receive the missing materials.

Sincerely,

Harold Weisberg
